Q9 - What aspects of the course helped your learning the most?
Response Rate: 100.00% (**9** of **9**)

1	the whole class is practical application and I think the assignments really aided in my learning for the WMC
2	the readings helped me understand the course the most
3	This course is very organized so I knew what assignments had to be turned in and there was always a due date. Also, I think it helped that during our first few weeks of being new tutors we were able to work on UNIV 299 in the writing center. During that time I was able to work with my buddies and ask for help from others that had taken this course before. Lastly, Abby was available or would make time to help us or talk to us if needed.
4	The information and the articles were helpful to understand the course.
5	The fact that we did class as a class (before we went virtual). It was nice how we had reading facilitators and would work through things together.
6	I loved that I am able to apply the skills in this class to my personal life. I loved that Abby gave a lot of personal feedback, and I feel like I took along a lifelong learning experience with this course in leadership, guidance, and community.
7	Constant interaction of professor to student. Very open and provides great feedback
8	Communicating with my fellow tutors and learning off of each other
9	Abby was very respectful, kind, and caring when my mental health issues reared their ugly heads.

Q10 - What aspects of the course would you change and why?
Response Rate: 100.00% (**9** of **9**)

1	nothing, keep as is
2	nothing!
3	n/a
4	Maybe the coursework load per week. It was dense material that was hard to complete every week.
5	Less classroom work and more hands-on training in the WMC
6	I'm not sure. I enjoyed the class.
7	I would get rid of the sketchbook assignments. That's not me being lazy, they just feel like way too much to handle.
8	I don't really know what I would change about this course. It is what it is because of how it is a requirement for a job... Maybe instead of reading all of the long articles assigned to us we could read only assigned pages of it?

9	I don't know if I would change anything. I know the first half of the semester was primarily through tumblr, which was a little weird, but I liked that the second half of the course also incorporated Canvas.
